Subject: Nominations: ACM Transactions on Knowledge Discovery from Data (TKDD) Editor-in-Chief
To: <haixun.wang@instacart.com>

Dear Dr. Haixun Wang,

I am writing to express my interest in the position of Editor-in-Chief (EiC) for ACM Transactions on Knowledge Discovery from Data (TKDD), as advertised in the recent call for nominations. It is an honor to submit my nomination for this esteemed role.

Over the years, TKDD has established itself as a leading journal in the field of knowledge discovery and data analysis, and I am excited about the opportunity to contribute to its continued success and growth. My commitment to advancing research in data mining and my vision for the future development of TKDD align well with the goals and values of the journal.

Throughout my career, I have actively engaged with the research community, both as a contributor and a reviewer. I have a deep appreciation for the importance of maintaining high editorial standards, ensuring timely reviews, and fostering a diverse and inclusive publishing environment. My experience has equipped me with the skills necessary to lead an editorial team effectively and uphold the integrity of TKDD.

I believe in the importance of expanding the scope of TKDD to encompass emerging areas of research in data mining, promoting interdisciplinary collaboration, and advocating for open access and reproducibility. These initiatives are essential for keeping TKDD at the forefront of innovation in the field.

I am enthusiastic about the opportunity to engage with the TKDD community, organize events, and work closely with authors, reviewers, and the editorial board to ensure the journal's continued excellence. Together, we can address the challenges and opportunities in data mining and contribute to the growth of this dynamic field.

I am grateful for your consideration of my nomination for the role of Editor-in-Chief for ACM TKDD. I look forward to the possibility of serving in this capacity and contributing to the success of the journal. Thank you for your time and consideration.

CALL FOR NOMINATIONS

ACM Transactions on Knowledge Discovery from Data
Call For Nominations: Editor-in-Chief

TKDD serves as a premier archival source for outstanding research and developments in the realm of knowledge discovery and data analysis across a wide range of data types. The journal focuses on areas such as scalable algorithms for data mining and warehousing, real-time data stream mining, and the analysis of multimedia, high-dimensional, text-based, web-based, and semi-structured data. Additionally, it covers topics like mining spatial and temporal data, social network and community analysis, graph-structured data mining, as well as issues related to security and privacy. The journal also delves into visual, interactive, and online data mining techniques, pre-processing and post- processing strategies, robust statistical methods, data mining languages, foundational theories in data mining, and the overall KDD

process. Established in 2007, TKDD has consistently remained a leading journal in its field, featuring innovative applications and infrastructures that leverage data mining technologies.

Appointed by the ACM Publications Board, Editors-in-Chief (EiCs) of ACM journals are delegated full responsibility for the journal's editorial management consistent with the journal's charter and general ACM policies. The ACM Volunteer Editors Position Description contains a complete list of responsibilities. The Board relies on EiCs to ensure that the journal's content is of high quality and that the editorial review process is both timely and fair. They have the final say on the acceptance of papers, the Editorial Board size, and Associate Editors' appointment.

As the term of the current Editor-in-Chief (EiC) of the ACM Transactions on Knowledge Discovery from Data (TKDD) is coming to an end, the ACM Publications Board has set up a nominating committee to assist the Board in selecting the next EiC.

Nominations are now open for the three-year term of Editor-in-Chief (EiC) at TKDD, starting on January 1, 2024. The EiC term may be renewed once at most. Self-nominations are encouraged and should include a CV and a statement of the candidate's vision for the future development of TKDD.

The deadline for submitting nominations is Nov 30, 2023, although nominations will continue to be accepted until the position is filled. Please send all nominations to the nominating committee chair, Haixun Wang (haixun.wang@instacart.com).

The search committee members are:

- Haixun Wang (Instacart), Chair
- Dimitrios Gunopulos (University of Athens)
- Jiawei Han (UIUC)
- Vagelis Papalexakis (UC Riverside)
- Wei Wang (UCLA)
- Zhi-hua Zhou (Nanjing University, China)

The ACM Publications Board Liaison is: Michelle Zhou (Juji Inc.)
